Not your average cover band - Jean Therapy offers a sophisticated fusion of Jazz, Rock, Latin & Pop. They draw upon a musical catalogue with a complex history - classic jazz-rock fusion, staples from the late 60's to mid 70's, stand-out contemporary hits, and updated jazz standards. Slightly off center, yet hauntingly familiar - there is a tongue-in-cheek nostalgia to this unique cover band's repertoire. It's fun. It's adult. It's unexpected.
